Voyage, a series of three books for Classes 6, 7, and 8, covers physical, regional, and practical geography. This set of books is based on the latest syllabi prescribed for these classes by the Inter-State Board of Anglo-Indian Education and recommended by the Council for the Indian School Certificate Examination (CISCE), New Delhi. Innovatively designed, each book of the series enlivens the study of geography and motivates students to acquire knowledge and awareness beyond the syllabus. It takes students on a journey to explore the world around them, with the aim to enable them to understand and appreciate the mutual beneficial interrelationship between living beings and the environment. The photographs, maps, and activities included in the series make the learning of geography an enjoyable experience.
